Dorper Sheep Breed South Island Sale 16 January 2010

Conditions of Sale:

1. All stud sheep are registered animals or progeny of registered animals with pedigrees (Australian or New Zealand). All vendors selling sheep are registered with the New Zealand Sheep Breeders Association.
2. All sheep (except cross bred animals where there can be a maximum of five per pen/lot) will be one animal per pen/lot.
3. All White Dorper rams presented for sale are confirmed as a non carrier of the Dermatosparaxis gene (entries for white rams have been compared with the register held by the NZ Sheepbreeders Association office).
4. All registered animals are shorn within six weeks of the sale or have a cover of less than 1.5cm.
5. All entries are from Accredited Brucellosis Free Flocks (a copy of the current Brucellosis Certificate accompanies all entries).
6. Crossbred ewe pens will be sold per pen/lot.
7. All crossbred ewes have a pedigree showing the sires and base dam breed used for upgrading (this will be displayed on their pen).
8. No sheep to be sold on the grounds on sale day other than those entered into the catalogue.
9. All sheep catalogued by the breeder must be owned by that breeder and not sold on behalf of another person.
10. All sale sheep will be inspected by the Auctioneer prior to sale day.
11. All sheep entered will be catalogued and no withdrawals can be made after entries close. In the event of a catalogued entry being injured or otherwise being unfit for sale a substitution will be permitted. Substitutes must also pass inspection.
12. Animal status declaration forms accompany all sale entries on arrival at the sale venue.
